Panely topení

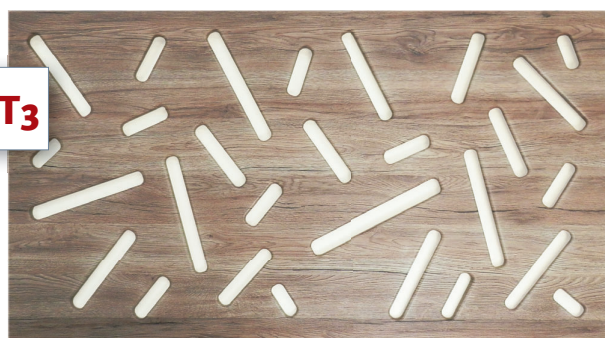

PT₁

PT₂

PT₃

Krycí panely na radiátory se vyrábí z estetických důvodů s přesahem přes radiátor 25 mm z obou stran na šířku a 100 mm z obou stran na výšku.

Rozměry krycích panelů a přesahy je možné po domluvě přizpůsobit umístění radiátoru, ventilů, regulátorů a podobně.

Uchycení krycího panelu na radiátor: do 1400 mm doporučujeme 2 úchyty, nad 1400 mm doporučujeme 3 úchyty.

Krycí panely na radiátory jsou vyráběny pouze ve fóliích kategorií A, B, C a D. **Nevyrábí se ve vysokém lesku.**

Obchodní nabídka

Objednávka

Objednávku lze provést pouze písemně na přiloženém tiskopisu.

Dodací podmínky (termín a způsob dodání)

Termín dodání zakázky je do 14 pracovních dnů, a to od následujícího dne po obdržení vaší objednávky. Po vzájemné osobní dohodě je možné dohodnout zahájení výroby i bez uhrazení finanční zálohy. Objednávku lze stornovat maximálně do konce téhož dne. Později již není možné objednávku zrušit, a to z důvodu dodržení krátkého termínu dodání a s tím spojené okamžité přípravy výroby.

Způsob dodání

Odběr zakázky probíhá v místě výroby proti platbě v hotovosti. V případě potřeby je však možné zaslat dvířka nezávislým přepravcem (na náklady objednavatele – 1 balík 120 Kč bez DPH – cca 20 kg). V případě zaslání se k termínu dodání přičítá i doba nutná na přepravu.

Fóliování dodaných dílců

Je možné dohodnout podmínky při osobním jednání.

Patina

Tato povrchová úprava má vysoký podíl ruční práce, a proto je potřeba dbát na jemné zacházení. Při doobjednání k již vyrobeným dílcům žádáme o dodání vzorového, již hotového kusu. V opačném případě nezaručujeme stejný odstín dvířek.

Vysoký lesk

Dvířka ve vysokém lesku jsou opatřena ochrannou fólií, která chrání povrch před poškrábáním při manipulaci, přepravě a samotné montáži. Fólii odstraňte až po úplném osazení dvířek. Upozorňujeme, že vysoký lesk je velmi náchylný k poškrábání špatným zacházením. Vysoký lesk nabízíme pouze v profilu K0 ostrá.

Záruka 5 let na skryté vady

Na fóliovanou dvířkovinu poskytujeme záruku 5 let na případné skryté vady. Výroba nových dvířek je však podmíněna dostupností fólie u jejího výrobce. V případě, že se fólie již nevyrobí, je možné nabídnout za ni adekvátní náhradu.

Stojan na dvířka

Možnost zapůjčení.

Rozměr stojanu:

990 × 2185 × 405 mm (š × v × h)

Vzorky dvířek

Pro podporu prodeje je připravena vzorková sada obsahující celkem 85 vzorků o rozměrech 296 × 396 mm, a to za 700 Kč bez DPH.

Dále nabízíme

Vrtání otvorů na panty ZDARMA.

Lepení skel ZDARMA.

Možnost zasklívání zasklívací lištou

V případě, že vás naše obchodní nabídka zaujala, těšíme se na spolupráci.
